American Exchange not to be added to Price of Steel Supplied Shipbuilders

Department of Marine and Fisheries, December 9, 1920.

Sir,—In the text of the Contracts covering the construction of certain of the ships for the Government Shipbuilding Program, is the following clause:—

> "It is understood and agreed that the aforementioned price of two hundred and fifteen ($215.00) dollars per ton ascertained deadweight is fixed and agreed to on the understanding that the Minister has contracted and agreed to supply the steel material to be used in the construction of the said vessels to the Contractors at a base mill price of three and one-quarter (3¼) cents per lb. and it is further agreed that in the event of the said price of steel being increased or decreased the price of the vessels as defined in the preceding paragraph of this clause shall be modified accordingly."

Under the provisions of this clause the Department purchased the steel material and supplied same to the Contractors charging them therefor the stipulated price of three and one-quarter (3¼) cents per lb. and in addition charged them with the amount of the exchange on the necessary American funds in which payment for the steel had to be made, the steel having been procured from the United States mills. The Contractors, however, claim that they are not liable for payment of this exchange under the terms of the clause quoted above.

I will be very much obliged for your opinion therefore, as to whether or not the Department was justified in charging the Contractors with this exchange, or whether the Contractors are right in their contention that the language of the clause referred to implies no obligation on their part to pay for the steel at the rate of three and one-quarter (3¼) cents per lb., plus exchange.

As this matter is urgent I will be very much obliged for the requested opinion, at your earliest convenience.

I am, sir, yours very truly,

A. R. TIBBITS, *Acting A.D.M.*

The Deputy Minister, Department of Justice, Ottawa, Canada.

Department of Marine and Fisheries, December 15, 1920.

Sir,—Adverting to my letter of the 9th instant, with reference to the interpretation of a clause in certain shipbuilding contracts specifying the rate of payment for steel supplied the contractor by the Minister, and to yours of the 13th (2558/20) in reply, I now beg to enclose, in response to your request, a copy of one of the complete contracts, in which the clause referred to occurs.

Replying to your enquiry as to whether, at the time the contract was entered into, the contractors were aware that the Minister would have to procure the steel for the construction of the vessel from United States mills,—we have no record to give you definite answer, other than the terms of the contract itself. It may be assumed that such was the case as, at that time, steel plates for shipbuilding were not made in Canada, and the most convenient source of supply was from the mills in the United
